

Waste Management Program

Rohan Wilks
Environment Support Manager

ENVIRONMENTAL MANAGEMENT

Environmental Management

- The site has been subject to at least annual environmental audits since 1991.
- The site is also certified / licenced in relation to:-
 - **Environment Management AS/NZS ISO 1401**
 - **Quality Management AS/NZS ISO 9001**
 - **Safety Management AS/NZS 4801**
 - **Major Hazards Facility**

COMMUNITY ENVIRONMENTAL COMMITTEE

Community Consultative Committee

- There has been a program of community consultation ongoing since 1990.
 - **Odour Reduction Committee 1990-94.**
 - **Community Environmental Consultative Committee 1994-2010.**
 - **Community Consultative committee** Cross section of community represented.
- Contributes to the review and update of the Maryvale Environment Strategic Plan.

Zero Harm Sustainability Action Plan

- The Zero Harm Sustainability Plan is updated on an annual basis and is developed in conjunction with the Community Consultative Committee
- For the first time this year the AP asked the Community Consultative Committee to assess and prioritise the Sustainability Actions and provide feedback to AP
- This process has ensured that AP's sustainability actions are aligned with community expectation.
